Node.JS

PROJECTS

Trailer Company - July 2022

Working closely with a company to build a responsive site to replace an outdated site.

Movie Search Tool - May 2022

Created with HTML, Bootstrap, and JavaScript, this search tool uses the OMBD API to find movies. It also has a random word search.

Spotify Remote Player - July 2022

Utilized React.JS and the Spotify Web API to create a remote player for Spotify that can browse the user's playlists, and basic music controls.
